

Overview of Solidarity Day - On Wednesday, June 10th 350.org will be hosting a solidarity action with the Movement for Black Lives. We will be hosting an online action where we will call on our base to lift up the Movement 4 Black Lives demands for federal action to the COVID-19 pandemic. As the Senate works on the next recovery package we need to demand that Black communities are prioritized. Black people have been disproportionately impacted by Covid-19 because of systemic injustices and should be centered in the recovery from the pandemic. Join us in a day of action on Wednesday, June 10th to call on our Senators to prioritize Black communities and workers in the next recovery package.

Movement for Black Lives Demands for federal action from the COVID 19 crisis

- Ensure access to basic needs including food for all.
- Ensure the financial health and stability of all individuals so they can better weather this crisis
- Implement an equitable plan to pay for a needed response to the current crisis:
- Increase the resilience and stability of our economy by investing in a Green New Deal with a guaranteed jobs program.
